TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, Python, PHP, Dart, HTML, CSS, SQL
Frameworks & libraries	React, Node.js, Spring Boot, React Native, Flutter, Bootstrap, Material 3, Jersey, Hibernate, Retrofit
Databases & data	MySQL, relational database design, ER modelling, HeidiSQL, MySQL Workbench
Tools	Android Studio, IntelliJ IDEA, NetBeans, VS Code, PyCharm, Maven, Gradle, GitHub, ngrok

SELECTED PROJECTS

Smart School Service / School Transport Management System
Concept and application work for a role-based transport platform for parents, drivers, and owners, including attendance workflows, route tracking concepts, notifications, and payment records.

Global Chat App
Full-stack real-time messaging project exploring chat interfaces and backend communication.

Secure Chat App
Chat application with a straightforward authentication flow and direct communication experience.

Senara Digital Menu
Responsive digital menu project for browsing restaurant dishes and categories.

Smart Food
Food-ordering experience concept focused on browsing menus and placing orders.

EDUCATION

2026–present	BSc (Hons) Software Engineering — undergraduate studies Birmingham City University (programme in progress)
2025	Higher Diploma in Software Engineering Java Institute for Advanced Technology
2023	Diploma in Software Engineering Java Institute for Advanced Technology
2021	G.C.E. Ordinary Level examinations

ADDITIONAL ACHIEVEMENT

Represented Kandy in karate and earned three gold and two silver medals, developing discipline, consistency, and a competitive mindset.
